Childs Co.—SEC Supports Stockholder's Plan—

The Securities and Exchange Commission on Oct. 24 filed a report, which is supplementary advisory report in the Federal Court in New York City on the amended plans for the reorganization of this company. In this report, the SEC held two plans proposed by Louis Yaeger, a stockholder, to be "fair and equitable and feasible."

On the other hand, the SEC held that the trustee's plan, although amended in certain important aspects, still was "unfair and unfeasible," and that other proposals filed in the proceeding were "unfair or unfeasible, or both."

Mr. Yeager's first proposal provides for the issuance to present preferred stockholders of \$3,731,600 of new \$25 par 4½% cumulative preferred stock at the rate of four shares for each share of present preferred now held and 410,476 shares of new common (55.9%), at the rate of 11 shares for each share on present preferred. Under this proposal, present common stockholders would receive 324,415 shares of new common (44.1%) on a share for share basis.

As an alternative, Mr. Yeager proposed an all-common-stock plan, providing for issuance to present preferred stockholders of 373,160 shares of new common (69.7%) at the rate of 10 shares for each share of present preferred.

The present common stockholders under this proposal, would receive 162,208 shares (30.3%) at the rate of one-half share of new common for each share of common now held.

The SEC in its report concluded that while both Mr. Yeager's plans gave common stockholders the maximum participation permissible, they were "within the range of fairness."

Trustee Files Amendments to Plan-

The trustee in reorganization of this company, on Oct.-15, amended his plan before the U.S. District Court for the Southern District of New York, to accomplish the following:

1. Decrease the proposed bank loan from \$2,500,000 to \$2,000,000. 2. Increase the participation of the present holders of common stock in the new common from 15% plus warrants to 17.5% plus warrants.

3. Increase the interest rate on 1957 debentures from 5% to 6% from April 1, 1943, to Aug. 26, 1943, commencement of the reorganization proceedings.

4. Reallocate the payments heretofore made upon claims of debenture holders and other creditors so that such payments will be applied first against interest and then against principal, instead of being applied against principal in the first instance.

5. Provide that in the near future further payment in cash equal to 15% of the principal amount of the claims be paid to the debenture holders and other creditors whose claims have been allowed.

The SEC's advisory report was submitted on Sept. 30. It proposed that if the new capitalization of the company were to consist only of common stock, as in the trustee's original plan, "between 70% and 75% of such stock should be issued to the old preferred stockholders and the balance to the old common stockholders." The Commission said its allocations were based upon an estimated

valuation of the equity of the company at \$10,300,000, which the trustee had termed "too high." The trustee's valuation was placed at \$9,000,000 originally.

The SEC had recommended elimination of both the warrants and ne bank loan as "unfair, unfeasible and unnecessary."

Seeks SEC Approval of New Unit-

The corporation filed Oct. 22 with the Securities and Exchange Commission a proposal to organize a new company, to be known as the Southern Co., as a step in its program for compliance with the corporate simplification and geographic integration requirements of the Holding Company Act.

to the proposed new company Commonwealth would transfer among other things, all of the common stocks of its Southern operating companies—Alabama Power Co., Georgia Power Co., Gulf Power Co., Mississippi Power Co., and South Carolina Power Co.

As the owner of such securities, the applicant stated, Southern "would be in a position to raise additional equity capital to finance the construction program of the Southern operating companies and to maintain such companies as an integrated public utility system within the meaning of the act."

To meet growing demands, the five operating companies will need approximately \$94,100,000 for construction before the beginning of 1949, Commonwealth asserted, and it is estimated that approximately \$13,500,000 of additional equity capital should be raised to facilitate the financing of such construction.

"Briefly summarized," the applicant said, "the present program embraces the organization of Southern, which will have an authorized capitalization of 15,000,000 shares of common stock (par \$5), and the issuance by Southern to Commonwealth of 10,000,000 shares of such common stock and not more than \$25,000,000 of debentures or serial notes in exchange" for the common stocks of the five operating companies, the common stock and indebtedness of the Savannah River Electric Co., and the \$3,000,000 in cash to be used by Southern as working capital:

Southern would then issue and sell enough of its common stock to obtain \$13,500,000, which it would invest in the common stocks of such of its subsidiary companies as may be determined in supplemental proceedings before the SEC.

Franklin Stores Corp.—Earnings-

The corporation and subsidiaries in its report for the fiscal year ended June 30, 1946 shows consolidated net income of \$1.479.667, after all charges and taxes and after a \$50,000 provision for contingencies. That was equal to \$2.06 per share on the presently outstanding common stock. For the previous fiscal year the company reported net income of \$1,020,690, which was equivalent to \$1.46 per common share.

common share.

The consolidated balance sheet of the company and subsidiaries at June 30, 1946 shows total current assets of 35,995,867, as compared with total current liabilities of \$1,799,777, a ratio of 3.33 to 1.

Working capital of the company on June 30 last amounted to \$4,196,090, representing an increase of \$485,940 over a year earlier. This was further strengthened in July with the consummation of a \$2,000,000 long-term bank loan, and bolstered the company's working capital position to approximately \$6,000,000.

Sales, as previously reported, reached a new record high at \$23,-471,917, a gain of \$1,325,030 or 6% over the previous fiscal year. The increase in sales volume, however, did not fully reflect the addition of 26 new outlets during the year, because in each instance the sales reported for new stores were not for a full year.—V. 164, p. 1869.

"This brings to substantial completion a long-term program of financial rehabilitation on which the management has been engaged for over 10 years." Mr. Hinman said. *The policy adopted by the corporation with respect to reserve for contingencies created out of income for the inclusive years 1941 to 1944 to provide for possible losses and unforeseen contingencies arising out of the World War, is to transfer to income account such amounts as are required to absorb the cost of strikes and other matters incident to reconversion. Accordingly, \$4,000,000 was transferred from reserve for contingencies to income account for the first quarter of 1946 on account of the extraordinary expenses incurred as a result of the January-February 1946 steel strike. If that transfer had not been made, the results for the six months ended June 30, 1946, would have shown a loss. As the strike cost is a deductible expense for income tax purposes, and as the \$4,000,000 transferred from reserve for contingencies is not taxable income, no provision for income taxes would be required on the basis of results for the first six months of 1946 except for certain subsidiary companies; however, on the assumption that on an annual basis Jones & Laughlin Steel Corp., will realize taxable income, provision for taxes has been made in the second quarter of 1946 on the basis of the year's estimated tax liability. † And in 1945 \$1,256,760 for quarter and \$2,634,348 for six months for amortization of war emergency facilities.—V. 163, pp. 2855, 2294.

A Snare—To Make Special Distribution on Dec. 24—
The corporation reports net asset value per share of \$26.02 on the 7/268,165 shares outstanding on Sept. 30, 1946. Taking into account the capital gains distribution of 50 cents a share paid on Dec. 24, 1945, this represents a decline of approximately 3.2% in net asset value per share from the figure of \$27.49 on Sept. 30 of last year, when there were 7,145,119 shares outstanding. The number of shareholders reached a new high of 57,330 on Sept. 30, 1946.

the year amounted to \$4,845,925, equal to 67 cents a share, the quarterly report states:

"On Dec. 24, a special distribution of capital gains for 1946 will be made to shareholders of record at the close of business on Nov. 15. This distribution will be payable at the election of the shareholder either in shares of the Trust, or in cash. Shares will be priced for this purpose at exact net asset value.

"Last year a similar distribution of capital gains was made. A large majority of the shareholders who owned sufficient shares to entitle them to receive payment in shares, chose to make payment in shares. We assume that in 1946, the greater part of the special distribution will again be taken in shares of the Trust."

With the present report to shareholders, the Trust is distributing a total quarterly dividend of \$1,817,041, at the rate of 25 cents a share. The amount of the year-end distribution of capital gains will be determined later.

The report shows that the three principal industries represented in the Trust's portfolio are oils, stores and utilities, comprising stocks of 46 companies and amounting to 38.5% of the portfolio.—V. 164, p. 1596.

North American Light & Power Co.—New Plan Filed With SEC for Group of Preferred Stockholders-

With SEC for Group of Preferred Stockholders—

Another plan for dissolution of the company has been filed with the Securities and Exchange Commission by Lawrence R. Condon, counsel for a group of preferred stockholders.

This is the fourth such plan. Others have been filed by North American Co., the parent, by the company itself, and by its subsidiary, Illinois Power Co.

The plan filed by Mr. Condon for the so-called Walters group provides that reserves first be set aside for alleged creditors of North American Light, with the exception of North American. Reserves would then be set aside for North American.

Publicly held preferred stock under the first step of the plan would be paid off at par and accumulated dividends. This would be done through use of cash on hand, plus part of the interest which North American Light holds in Northern Natural Gas Co. and in Missouri Power & Light Co.

Step two would comprise division of assets among creditors and stockholders entitled thereto after the SEC decides the merits of the claims cases asserted by Illinois Power Co. against North American and North American Light.

The Walters committee will provide details of such allocation after the SEC decision.

The plan has been filed with the SEC under Section 11 D of the Utility Act, which calls for court enforcement and compulsion upon the interested parties.—V. 164, p. 1636.

HISTORY AND BUSINESS—Company was incorporated in Delaware June 17, 1946. On or about July 26, 1946, the company acquired all of the outstanding stock of the Red Rock Bottling Co. of Youngstown (Ohio), which holds title to the property and franchise for the operation of the business. The franchises are for the manufacture and bottling of Red Rock Cola, Hep and Clicquot Club beverages.

The business for which the plant operates was originated over 45 years ago by Jacob Ebling and engaged in the manufacture and bottling of beverages, and known as The Purity Bottling Works from the date of origin to the date this company acquired control. The original owner sold the business in 1940 to Ralph Pallente, John King and Martin Jennings, who operated it successfully and with profit since that time. The operations were expanded in the original plant and within a period of 18 months, it was found necessary to erect a new plant and acquire larger equipment. The new plant was completed in the Spring of 1942 and new machinery was obtained at the same time. The plant is housed in a modern and up-to-date show-type building. show-type building.

PRODUCTS AND MARKET—It is the intention of the company that the bottling of beverages under the name of "Purity" be continued. Red Rock Cola, Clicquot Club products and Hep will be the principal brands, however. The company possesses exclusive franchises for the following counties in Ohio and Pennsylvania: Mahoning (containing City of Youngstown), Stark (containing City of Canton), Trumbull, Columbiana, Lawrence and Mercer. These counties in our contain contain approximately a million people. opinion contain approximately a million people.

PURPOSE—The money received from this sale of the securities will be used to reduce or pay off the \$140,000 mortgage on the plant, machinery and equipment; to purchase additional bottling equipment; to build additions to the plant or to purchase interest in additional plants; to purchase additional bottles, cases and trucks; to provide additional working capital; and for other corporate purposes.

(par 50 cents) of which 110,000 outstanding, not including the 199,000 shares now offered.

Of the 110,000 shares outstanding 100,000 shares have been issued to the Red Rock Bottling Co. of Pittsburgh for the plant and equipment (the price of which was \$240,000 of which \$100,000 has been paid) obtained for the organization and operation of the business. The value of the real estate and equipment (on which there is a mortgage of \$140,000, the payment of which is one of the purposes for which part of the proceeds of this offering are to be used), is, conservatively speaking, in excess of \$300,000 on the basis of valuation in the bottling industry in accordance with ordinary practice in respect thereto.

Likewise, 10,000 shares were issued to the Red Rock Bottling Co. of Cleveland which had control of valuable exclusive franchises and transferred same to this company. These two corporations ("Pittsburgh and Cleveland") are holding said stock of this company for

St. Louis County Gas Co .- Sale to Laclede Gas Co. Opposed-

In a special petition filed by its counselor, the County of St. Louis, Mossouri, Oct. 23 urged the Securities and Exchange Commission not to permit the North American Co. to sell the St. Louis County Gas Co. to the Laclede Gas Co.

The latter company recently announced that it would bid for the property, which the Commission has directed North American Co. to sell. Laclede Gas, the County of St. Louis avers, is "now franchised in an area beyond its capacity to economically provide gas fuel to its consumers. A sale to the said St. Louis utility would inevitably result in a rate increase to the consumers of St. Louis County."

The petition pointed out that the Commission ordered North American to dispose of County Gas as a means of benefiting the gas consumers of St. Louis County, the exclusive users of the fuel supplied by the utility. It also recommended that County Gas be sold with the objective of reducing gas rates and that the purchaser be required to continue operation of the company as a separate corporate utility.—V. 151, p. 1734.

FRIDAY - WEEKLY - YEARLY

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

Figures after decimal point represent one or more 32d of a point.

NEW YORK CURB EXCHANGE WEEKLY AND YEARLY RECORD

NOTICE—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week, and when selling entaids the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of transactions on the New York Curb Exchange for the week beginning on Saturday, Oct. 19 and ending the present Friday (Oct. 25). It is compiled from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings have occurred during the current year.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, in as much as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give the final and complete results of the week previous-the week ended Oct. 19. For that week there was an increase of 24.0%, the aggregate of clearings for the whole country having amounted to \$15,161,908,151 against \$12,231,-576,711 in the same week in 1945. Outside of this city there was a gain of 30.3%, the bank clearings at this center having recorded an increase of 18.8%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals record an increase of 19.4%, in the Boston Reserve District of 22.6% and in the Philadelphia Reserve District of 34.3%. In the Cleveland Reserve District the totals register an expansion of 28.1%, in the Richmond Reserve District of 36.4% and in the Atlanta Reserve District of 39.1%. In the Chicago Reserve District the totals are larger by 40.0%, in the St. Louis Reserve District by 35.2% and in the Minneapolis Reserve District by 24.9%. Southern Natural Gas Co.-Plans \$8,000,000 Expansion Project-

The company has asked permission of the Pederal Park Commission to spend about \$8,000,000 for additions to its gas system. Improvements proposed would consist mainly of loop lines and compressor units and would increase capacity from 255 to 305 billion cubic feet daily. It also plans branch lines to deliver gas in Chattanooga, Tenn., and Lexington, Miss.—V. 164, p. 1764.

Southern Phosphate Corp .- To Make Capital Distribution of \$12.70 per Share-

On Oct. 31, the stockholders will vote on approving and authorizing a reduction in the capital of the corporation by changing the par value of its capital stock from \$10 to \$1 per share.

The New York Curb Exchange has been informed that if the stockholders approve and authorize the reduction of capital there will be distributed to stockholders the sum of \$12.70 per share, payable on and after the date succeeding the date on which the reduction of capital and according amendment of the corporation's charter becomes effective, but only upon surrender of the \$10 par value certificates.

Southern Union Gas Co.—96% of Rights Exercised—

The company's stockholders have exercised over 96% of the rights, representing 258,851 shares, offered them to purchase the stock of the Barker Dome Oil & Gas Co., C. H. Zachry, President, announced on Oct. 21. Rights were offered at \$1.10 each on the basis of one share of Barker for each four shares of Southern Union common held. Barker, organized by Southern Union, owns 8,400 acres of oil and gas leases in the Barker Dome field in New Mexico and Colorado on the Ute Indian Reservation. As a result of the exercise of rights, Southern Union disposed of its original stock interest in the new company. The Southern Union company, however, has retained over 2,000 acres of leases in the field on which four wells have been drilled to 9,000 or more feet. to 9,000 or more feet.

to 9,000 or more feet.

The rights offering was the second made this year to Southern Union stockholders. In July, rights to purchase some 800,000 shares of Delhi Oil Corp. stock were issued, of which over 97% were subscribed. Delhi, also originally organized by Southern Union, owns a one-half interest in 14,000 acres of leases in the Delhi and Big Creek Fields in Louisiana and over 2,300 acres of leases in the Empire-Red Lake Field in New Mexico.

Southern Union Gas Company is continuing its own exploration and development activities, Mr. Zachry said. Either directly or through a wholly owned subsidiary; it owns interests in over 200,000 acres of oil and gas leases covering areas in West Texas, New Mexico, Colorado and Utah.—See also, V. 164, p. 1765.

Standard Brands Inc.—Preferred Stock Offered—Dillon, Read & Co. Inc. and Blyth & Co., Inc., head an investment banking group which is underwriting the exchange offer by the company of 220,000 shares of its \$3.50 cumulative preferred stock (no par).

The exchange offer, which expires at 3 p.m. Oct. 29, affords holders of the company's existing \$4.50 preferred stock the privilege of exchanging such stock for shares of a new issue of \$3.50 preferred stock. The number of shares of \$3.50 preferred stock issuable to a stockholder surrendering shares of the old preferred stock, will be determined by valuing the old preferred at \$110 per share which is the redemption price, and valuing the new \$3.50 preferred stock at \$98 per share.

No fractional shares of new preferred stock are to be issued in -V. 164, p. 1252.

exchange; instead the company is to pay the exchanging stockholder a cash adjustment based on the foregoing valuations plus a cash dividend adjustment. For example a stockholder exchanging 10 shares of old stock would receive 11 shares of new stock and \$22 cash for his fractional share, and a stockholder exchanging 100 shares of old stock would receive 112 shares of new stock and \$24 cash for his fractional share. In addition, in each case the stockholder would receive a cash dividend adjustment.

The cash proceeds to be received by the company from the sale of unexchanged shares of new preferred stock will be applied, together with treasury funds to the extent required, to redeem at \$110 per share plus accrued dividends all unexchanged shares of old \$4.50 preferred stock.

\$4.50 preferred stock.

The new \$3.50 cumulative preferred stock will be redeemable at \$102.50 per share on or before Sept. 15, 1947, and at prices declining to \$100 per share if redeemed on and after Sept. 16, 1951.

Giving effect to this financing, outstanding capitalization of the company will consist of the 220,000 shares of \$3.50 preferred stock and 3,174,527 shares of common stock.—V. 164, p. 2059.

Standard Oil Co. of California—Launches New Tanker The first radar-equipped tanker to be built postwar in the United States was launched at Chester, Pa., on Oct. 20, when this corporation's S.S. R. G. Follis slid down the ways at the Sun shipyard.

Of completely modern design, this vessel is a sister ship of the recently launched F. S. Bryant in all particulars except the addition of radar in the newer vessel. The radar equipment in the R. G. Follis utilizes the war-developed efficiency of this navigational device for conquering fog and darkness. Although radar has been added to other tankers, this is the first instance of its inclusion in the original design and construction.—V. 164, p. 1915.

Standard Oil Co. of New Jersey (Del.)—Selects Site of First Overwater Oil Well on Atlantic Coast-

A site in Pamlico Sound off the North Carolina shore has been selected for the first overwater drilling ever attempted along the Atlantic Coast, it was announced on Oct. 18 by M. J. Rathbone,

The well will be 17 miles from Manteo, N. C., and 32 miles north of the historic Hatteras Light where the company recently plugged as a dry hole an exploratory well which reached a depth of 10,054 feet. The site is about three miles west of Barrier Beach, where the depth of the water is about five feet.

Interpretations of drilling results at Hatteras, coupled with data obtained from extensive seismograph surveys of the area, led to selection of the Pamlico Sound site as potentially the best location for the second test, Mr. Rathbone said.

The new well, to be known as North Carolina Esso No. 2, will get under way, Mr. Rathbone said, with arrival of a large sinkable barge.

now under construction in New Orleans.

The Pamlico Sound well will be known as a "wildcat" because it ill be in an area distant from known oil fields.—V. 164, pp. 2059 and 1915.

Stone Container Corp.—To Register With SEC-

Plans for public financing by the corporation, manufacturer of corrugated containers and privately owned since it was started as a partnership in 1926, were announced Oct. 24 by Norman H. Stone, President. A total of 300,000 shares of common stock is being registered with the SEC—200,000 for the account of the company and 190,000 for the Stone family and trusts, with public offering to be made by a national underwriting group headed by Hornblower & Weeks.

Weeks.

Proceeds of the company financing will be used to retire a bank loan and debentures which will leave the company free of debt and with capitalization consisting solely of 800,000 outstanding shares of common stock. The Stone family and trusts will retain 500,000 of the 800,000 shares to be outstanding.

The company operates modern container plants in Chicago and Philadelphia. Customers are located largely in areas near these cities. Paperboard mills at Coshocton, Ohio, and Franklin, Ohio, were acquired earlier this year. These mills produce a portion of the company's raw material requirements.

The Stone organization has operated at a profit in each year since its inception. Sales totaled \$7,771,877 for the year 1945 and \$4,876,202 for the first seven months of 1946.

Strawbridge & Clothier, Philadelphia-To Recapital-

The stockholders will vote Dec. 20 on a plan of recapitalization which would effect a three-for-one split of the common stock and exchange the present 6% prior preference stock for \$5 cumulative preferred stock.

Under the plan, approved by the directors, the authorized capital stock would be increased from 82,588 shares of \$5 cumulative preferred stock to 100,000 shares. The common stock would be increased from 300,000 no par shares to 700,000 shares of \$5 par.

Holders of 14,800 shares of authorized and outstanding 6% series A prior preference stock would be able to exchange these, share for share, for the \$5 cumulative preferred stock, plus 70 cents adjustment of dividends.

The unexchanged shares of prior preference stock, under the plan, would be called for redemption at \$105 a share and accrued dividends.

In addition to the prior preference stock, there are outstanding 77,710 shares of \$5 cumulative preferred stock, plus 3,552 shares in the treasury, and 191,848 shares of no par common stock. Giving effect to a three-for-one split, there would be 575,535 common shares of \$5 par outstanding.

effect to a three-for-one split, there would be 575,535 common shares of \$5 par outstanding.

The proposed recapitalization plan also calls for a change in sinking fund requirements of the \$5 preferred stock to place it on a cumulative basis. This would replace the present provisions requiring the company to set aside each fiscal year an amount equal to 20% of net earnings, after dividend requirements, for the preceding fiscal year. Explaining this, the company said: "With the current large volume of sales and resulting requirement of carrying large inventories, payments which will be required under present sinking fund provisions could be applied to better advantage to improvement of working capital position."

Although the authorized \$5 cumulative preferred stock would be increased more than is actually necessary under the proposal, the company has no immediate plans for issuing additional shares, except to effect the exchange.

The company on Oct. 18 filed a letter of notification with the SEC for 2,000 shares (\$5 par) common on behalf of the estate of Frank A. Smythe, deceased; Chauncey B. Smythe, Alan W. Transamerica Corp.—Court Ruling Appealed-

The corporation on Oct. 21 filed an appeal from a United States District Court ruling on the use of proxies in its stockholders meetings. E. B. Steele, Jr., of Wilmington, Del., Counsel for the corporation, said Transamerica's action follows similar action by the Securities and Exchange Commission.

Last spring, SEC sought to enjoin the use of proxies which stock-holders had given to the management prior to the April 24 meeting. It also asked that new proxies be sent out by the management in

balloting on three proposals.

The SEC proposals were that resolutions be passed requiring directors to mail to all stockholders accounts of annual meetings, that any proposed amendment be specified in advance of a meeting and that

stockhoders elect auditors of the torporation.

Subsequently, Federal courts refused to act on the proposed first two proposals but approved the third. The SEC then appealed on the first two counts. Transamerica's appeal was on the third proposal, regarding election of auditors.—V. 164, p. 1766.

United Air Lines, Inc.—Air Cargo Traffic Up-An all-time high for air cargo transportation was set up by United Air Lines in September with an increase of more than 211% over the same period last year, it was announced on Oct. 23 by M. P. Bickley,

Manager of cargo sales.

United flew an estimated 980,000 ton-miles of air freight and express last month compared with 314,590 in September, 1945. A factor, Mr. Bickley said, was the addition to United's all-cargo fleet of four-engined Cargoliners, each capable of carrying nine tons.

Air mail ton-miles flown in September—last month of the 8 cent rate—were estimated at 650,000. Company officials expect the figure to climb rapidly this month under the new nickel rate.—V. 164, pp. 1916.

Interstate Power Co.-Hearing on Plan Oct. 29-

The SEC will hold hearing Oct. 29 on company's amended plan for reorganization. The principal respect in which the amended plan alters the plan as heretofore amended is that two alternative methods are proposed for financing certain cash requirements in connection with effectuation of the reorganization of Interstate.

The amended plan has been proposed to permit consummation of the reorganization of Interstate prior to and independently of the determination of the questions regarding the validity and rank of Interstate's securities held by Ogden and without the necessity of filing a further emendment to the plan based on future market conditions. The amended plan may be summarized as follows:

A MINISTER WINDS DELENGED TONIVOLE

(1) Interstate will have a capitalization consisting of \$19,400,000 (instead of \$20,000,000) first mortgage bonds and an authorized issue of 5,000,000 shares of new common stock (par \$3.50), of which 3,000,000 shares will be issued in connection with the plan. Approxiely \$1,000,000 net book amount of Interstate's property, for the of which Interstate is negotiating, will not be pledged under the proposed mortgage.

(2) As of the effective date of the amended plan, the excess of the Interstate of utility plant over the original cost thereof will

(A) ALTERNATIVE ONE

(A) ALTERNATIVE ONE

(1) If in the judgment of the board of directors of Interstate an amount of \$18,610,500 can be raised in cash by the sale of not more than 2,700,000 shares of new common stock, then such number of the said 2,700,000 shares shall be sold pursuant to competitive bidding as may be necessary to raise \$18,610,500, this being an amount sufficient, when added to the principal amount (\$19,400,000) of the new bonds, for the following purposes and no others:

(a) Reimbursement of the treasury in the amount of \$2,000,000 for working capital and to discharge obligations for new construction completed or in progress prior to the effective date of the plan;

(b) Payment and discharge at the principal amount thereof (without premium) of the \$26,035,500 principal amount of presently outstanding first mortgage bonds;

(c) Payment and discharge at the principal amount thereof (without premium) of the \$7,500,000 principal amount of presently outstanding 6% debentures, including the \$100 debenture held by

(d) Payment and discharge at the principal amount thereof of the \$2,475,000 6% demand note owned by Ogden;

(2) There shall also be sold to the successful bidder or bidders for the shares sold as above provided, at the same price per share, such number of shares of the 3,000,000 shares of new common stock which remain after satisfying the requirements of subsection 4 (A) 100 bove as would be allocable to Ogden for its holdings of 12,569 shares of Interstate's preferred stocks, if such shares were compensated on a parity with the preferred shares held by others than Ogden

(3) The entire balance of the 3,000,000 shares of new common stock remaining unsold after satisfying the requirements of subsections (1) and (2) immediately above shall be distributed pro rata to the holders of Interstate's preferred stocks other than Ogden. Such distribution shall be made on a basis whereby there shall be distributed in exchange for each share of \$6 preferred stock 90% of the number of new common shares distributed in exchange for each share of \$7 preferred stock.

(4) Immediately following the sale of the shares of new common stock pursuant to subsections (1) and (2) immediately above, and upon execution by Ogden of a "Contingent Liability Agreement" described below, there shall be transferred to Ogden cash equal to the aggregate of the following:

(a) the principal amount of the \$100 debenture owned by Ogden (b) the principal amount of the \$2,475,000 6% demand note owned by Ogden;

(c) the proceeds of sale of the shares of new common steck referred to in subsection 4 (A) (2) above.

(5) There shall be issued to holders of preferred stock other than Ogden registered certificates (called "certificates of contingent interest") transferable by assignment, evidencing their proportionate contingent interests in the funds in Escrow No. 1 hereinbefore referred to, and in the funds referred to in subsection 4 (A) (4) above for which Ogden shall have a contingent liability pursuant to said Contingent Liability Agreement.
